You are given an integer n , you have to convert it into a string.

Please complete the partially completed code in the editor. If your code successfully converts n into a string s the code will print "Good job". Otherwise it will print "Wrong answer".

n can range between -100 to 100 inclusive.

Sample Input 0

100

Sample Output 0

Good job

Language

Java 7

```
17 29 //The following class will prevent you from terminating the code using exit
30 class DoNotTerminate {
31
32     public static class ExitTrappedException extends SecurityException {
33
34         private static final long serialVersionUID = 1;
35     }
36
37     public static void forbidExit() {
38         final SecurityManager securityManager = new SecurityManager() {
39             @Override
40             public void checkPermission(Permission permission) {
41                 if (permission.getName().contains("exitVM")) {
42                     throw new ExitTrappedException();
43                 }
44             }
45         };
46         System.setSecurityManager(securityManager);
47     }
48 }
49
```
